Enhanced parts library

Our parts library has been improved.

All the parts files including 2D/3D/REAL/SIGN are automatically installed
by simply updating to the version 5.4.29.0.

Examples of the parts

Here are some examples of Real parts and Sign parts.
For the full lineup of the parts library, please download "Parts List"
from our website: http://www.hakko-elec.co.jp/en/download/05other/index.php

<Real>

<Sign>

Parts files to be installed

2D/3D/3D_128/Real/Sign/HA are installed as standard.
   Available with the version 5.4.29.0 or later.

Ver. 5.4.29.0 or later

In addition to existing 2D/3D parts files, Real parts file and Sign parts files are installed as standard.

Upgrade your V-SFT-5 and enjoy beautiful parts with realistic appearance and graphic symbols.

How to specify a parts file to use as default

Default file is "Real".
   * "2D" is set to default when display color is 128-color.

You can set the 2D file as default by following the procedure as shown on the right.

Go to [File] > [Property] > [Edit] an d check [Use 2D parts as default] option box.

Free version upgrade of the configuration software V-SFT-5

You can update and download the V-SFT-5 configuration software from the website.
*Membership registration and first software purchase is required.
