(1) This CD-ROM is not available.   Please purchase the newest version of V-SFT DVD-ROM.

(2) Install V-SFT or UG00S-CW by following the procedure explained in this manual.   For details, refer to the "Install Procedure" on page 3.

(3) This manual is not necessary for you.   Install V-SFT in the PC by following the instructions of the installer.   When updating V-SFT, refer to the "Update Procedure" on page 6.

<Install Procedure>

   * Install the V-SFT editor with authorization of administrator.

1.   Uninstallation of V-SFT Ver. 5

     If V-SFT Ver. 5 is already installed on Windows Vista/ 7/ 8/ 8.1, you have to uninstall V-SFT Ver. 5.

     Click [Start] Menu → [All Programs] → [V-SFTV5] → [Uninstall].　About the details of uninstalling,

     refer to "V8 series Introductory Manual".

     If V-SFT Ver. 5 is not installed, go to step 2.

2.   Run "setup.exe" in the V-SFT/ POD EDITOR CD-ROM.

     Insert your V-SFT CD-ROM or POD EDITOR CD-ROM in the PC.

     When the following dialog is displayed, click "INSTALL".

     Example: V-SFT Ver. 5

3. Change the installing directory

   If your CD-ROM is V-SFT Ver. 5, click "Change…" on [Choose Destination Location] dialog.

   Change the destination from the default "C:¥Program Files¥V-SFT V5" to as follows:

   * If you have V-SFT CD-ROM Ver. 3/ 2, or POD EDITOR CD-ROM Ver. 5/ 4, you do not have to change the destination.

   However, V-SFT Ver. 3/ 2 or POD EDITOR Ver. 5/ 4 installed on Windows Vista/ 7/ 8/ 8.1, can not be used because these may not work properly.
   [Destination folder]

   < Before change >   < After change >

   C:¥Program Files¥V-SFT V5 ⟶ C:¥MONITOUCH¥V-SFT V5

                                          Alphabets   a space

Change "Program Files" to "MONITOUCH".
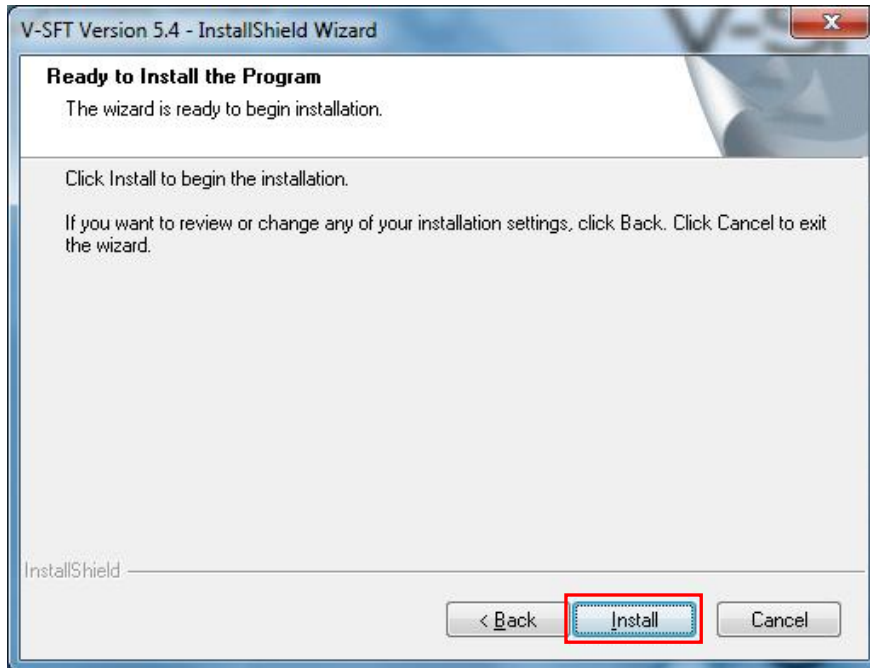

4. Start installation

   On [Ready to Install the Program], click "Install" to start the installation.

5. Implementation of update

   Upon completion of the installation in the step 4, update V-SFT editor.

   Refer to "Update Procedure" on page 6.

<Update Procedure>

   * Install the V-SFT editor with authorization of administrator.

Execute "update_v5.exe" or "V-SFT V6_update_V6xxx.EXE" downloaded from our website and follow the installer for instructions.
Do not change the destination from the default.

Example: V-SFT Ver. 5
