02 Networking Functions

It comes equipped with full networking functions. For example, when using the Web Server function, the same data as at the site can be easily checked in Google Chrome (web browser) and the information collected by TS4000 helps to visualize the site.

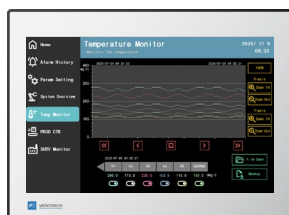

03 Made in Japan for Quality

We have achieved high quality and cost reduction through thorough efficiency improvements by carrying out all activities from R&D to manufacturing at a single base in Japan.

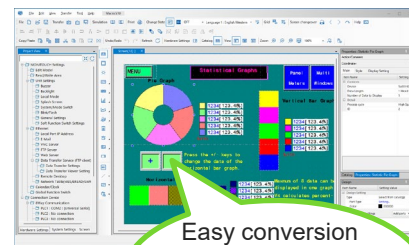

Attention! “Smart Editor” for editing and transferring TS4000 series screen data

For editing the TS4000 series, the configuration software “Smart Editor” is used. Screen data files created with V-SFT for legacy models can be converted to the TS4000 series using Smart Editor, allowing for editing and transfer.

MONITOUCH
TS4000 Series
Smart Editor

Easy conversion and reuse of screen assets for legacy models!
