

V-SFT Ver.5 Update Procedure

This document explains the update procedure for V-SFT using the update modules that you can download from our website.

[Either or both V-SFT-5 or V-SFT-6 already installed]

Download the update module for V-SFT-6 from our website.

- * You need to register as a member to download the update module.
- * If installing V-SFT Ver. 5 in "C:\Program Files" on Windows Vista or later, it may not work properly. Reinstall V-SFT Ver. 5 following the "Update procedure for the V-SFT CD-ROM Ver.5.4.18.0 or earlier".

1. Click "Search" after setting the conditions as below. The update modules are displayed.

The screenshot shows a web browser window with the URL https://felib.fujielectric.co.jp/download/pod_document.htm?site=global&lang=en. The page is titled "Fuji Electric Global" and features a search interface. The search criteria are set to "Software" under "Search Human machine Interface(POD) Documents". The search filters are: Productgroup: TECHNOSHOT TS2060, Manualtype: Configuration Software, and Category: Update module. A "Search" button is visible below the filters.

Below the search interface, the search results are displayed as a table with 11 documents:

[Neither V-SFT-5 nor V-SFT-6 installed]

Please purchase DVD-ROM of V-SFT-5 or V-SFT-6.

(The update module from our website is only for the update. It cannot be used for installation.)

* However, if you have CD-ROM/DVD-ROM for configuration software "V-SFT" or "UG00S-CW", you may be able to update to "V-SFT-5".

The installation procedure differs depending on the OS of your PC and the version of your CD-ROM/DVD-ROM.

For the detailed procedure for installation, see the "Update procedure for the V-SFT CD-ROM Ver.5.4.18.0 or earlier".
