- Screen program conversion

The GD-80 series can be replaced with the V8 series by converting the GD-80 series screen program using V-SFT-5 or V-SFT-6 (V series screen configuration software).

However, note that 100% compatibility is not ensured and some functions may be limited or may not be available after replacement.

For details, refer to the V8 Series File Conversion Manual.

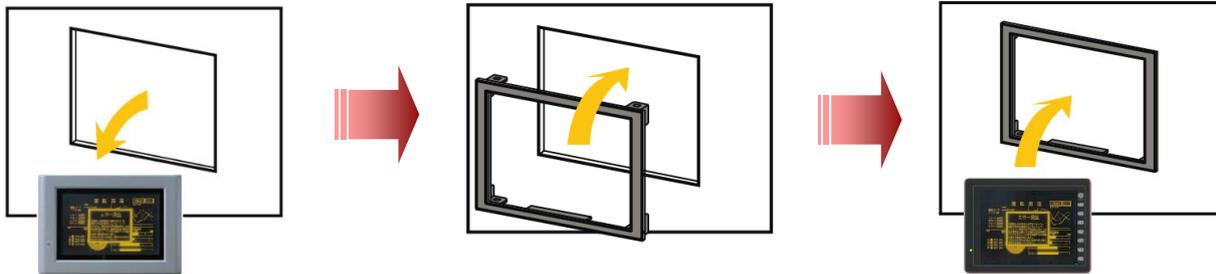

- Mounting panel adaptor (PAD-Vxxx)

A mounting panel adaptor is used when installing a new MONITOUCH model into the panel cut-out hole of the GD-80 series.

(1) Remove the GD-80 series unit from the panel.

(2) Install the mounting panel adaptor.

(3) Install a V8 series unit.

* The indicated recommended model for replacement can be used with minimal restrictions. Please note that other models not described here can also be used; make a selection according to your system requirements.
